

BÜHLER REDEX

Hot and cold rolling mills for round, flat and profile metal wire.

BÜHLER REDEX
Cold Rolling Mills for Wire, Strip & Profile

EBNER

Industrial furnaces for heat treatment with process atmosphere and/or high convection for steel, light metal alloys and non ferrous products.

EBNER[®]

EJP WIRE TECHNOLOGY

Pay-off systems (horizontal or vertical), bending descaler, brush descaler, sanding descaler (descaling, removal of surface imperfections), coating units (wet or dry).

ESTEVES GROUP

Diamond dies, carbide dies with diamond coating, extrusion tools with carbide or diamond insert. Dies repolishing and recutting. Machines for die polishing and recutting.

HÄFNER

HÄFNER & KRULLMANN

Plastic spools for wire, optical fibre, synthetic material and metal strip.

KIESELSTEIN

Draw-peeling (steel wire, as well as valve spring wire, stainless steel, bearing steel, cold heading wire) : draw-peeling plants, draw-peeling unit, peeling dies. Horizontal straight-line drawing machines for the processing of steel wire, aluminium and aluminium alloys, copper rod and super conductor. Wet wire drawing machines drawing of high-strength steel wire, stainless steel wire and wire of non-ferrous metals. Hot wire drawing machines are used to reduce the diameter of difficultly transformable wire by drawing. Single wire drawing machines. Accessories for drawing machines: pay-offs, coilers, etc.

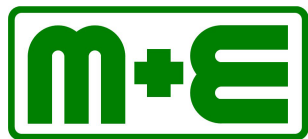

KRENN

Manual hydraulic steel cutters and straighteners. Universal hydraulic testing presses.

KROLLMANN

Pointing. Point rolling machines. Point hammering machines. Point pressing machines. Point milling machines. For wire, bars and tubes.

M+E

Wet drawing machines for steel and stainless steel wire. Automatic spoolers. Coilers and spoolers for wire treatment lines.

PLASMAIT

Plasma based furnaces for continuous heat and surface treatment of metal wire, cord and strip. Continuous heat and surface treatment for PV-Ribbon.

RENTROP & RAHMER

Compacting machine for coils. Manual or automatic banding.

SIRIO WIRE

In line electrolytic plating lines: copper, zinc, phosphate. In line cleaning lines. In line pickling.

SKET

Production and assembly equipment for steel cable, power cable, communication and optic fibre cable industry. Rapid stranders, single or double torsion stranding machine - Accessories and complete lines.

STRECKER

Buttwelding machines for ferrous and non-ferrous wire, cable, strand, flat and shaped wire.

WITELS ALBERT

For wire, cable, strip and tube: straighteners, rolls, roll straighteners, concentric guide rolls, roller crosses, drive units, preformers and postformers.

WITHÖFT

Pulling tongs.
