

BÜHLER REDEX

Cold Rolling Mills for Wire, Strip & Profile

BÜHLER REDEX

Hot and cold rolling mills for round, flat and profile metal wire.

HÄFNER

HÄFNER & KRULLMANN

Plastic spools for wire, optical fibre, synthetic material and metal strip

KIESELSTEIN

Draw-peeling (steel wire, as well as valve spring wire, stainless steel, bearing steel, cold heading wire) : draw-peeling plants, draw-peeling unit, peeling dies. Horizontal straight-line drawing machines for the processing of steel wire, aluminium and aluminium alloys, copper rod and super conductor. Wet wire drawing machines drawing of high-strength steel wire, stainless steel wire and wire of non-ferrous metals. Hot wire drawing machines are used to reduce the diameter of difficultly transformable wire by drawing.

KROLLMANN

Strip wire drawing machines. Accessories for drawing machines: pay-offs, coilers, etc. Pointing. Point rolling machines. Point hammering machines. Point pressing machines. Point milling machines. For wire, bars and tubes.

LEIMBACH

Accessories for extrusion lines : pay-off pintles, pay-offs, dual automatic take-up up to 1600 mm.

NIEHOFF

Wire drawing lines for non ferrous material. Continuous inline annealers. Automatic spoolers, static coilers. Automation.

PLASMAIT

Plasma based furnaces for continuous heat and surface treatment of metal wire, cord and strip. Continuous heat and surface treatment for PV-Ribbon.

PLASTICOLOR – WOYWOD

Dosing units for extruders : single dosing units, colour change systems, volumetric and gravimetric mixing stations, hopper loaders and driers.

ROSENDAHL NEXTROM

Extruders for telephone and telecommunication cables, optic fibre cables, coaxial cables and low voltage cables. Portal pay-off and take-up. SZ Stranding lines. Metal tape forming, welding and annealing.

SIRIO WIRE

In line electrolytic plating lines: copper, zinc, phosphate. In line cleaning lines. In line pickling.

SKET

Production and assembly equipment for steel cable, power cable, communication and optic fibre cable industry. Rapid stranders, single or double torsion stranding machine - Accessories and complete lines.

STRECKER

Buttwelding machines for ferrous and non-ferrous wire, cable, strand, flat and shaped wire.

WITELS ALBERT

For wire, cable, strip and tube: straighteners, rolls, roll straighteners, concentric guide rolls, roller crosses, drive units, preformers and postformers.

WITHÖFT

Pulling tongs.

WTM

Cable taping line (concentric type) for application on low-losses or high quality cables. Complete systems for thermal treatments or sintering process for wire and cable. Vision systems for in line cable control. Cable rewinding and control line. Equipments for drag chain tests and for cable torsional tests. Single-twist cable standers with tailstock and shaft design.
