# BRAUN

## at a glance

Founded in 1848 as a family-owned company, BRAUN has always been known as a highly innovative, successful enterprise, active in the field of machine construction and mechanical engineering.

BRAUN is doing business on a world-wide perspective and is, as the technology leader for cutting and grinding facilities, preferred supplier of the international steel and special metals industry.

With the parent company BRAUN Maschinenfabrik GmbH in Vöcklabruck, Austria, BRAUN's own sales and service hubs BRAUN Machine Technologies, LLC in Vienna, Ohio, USA and BRAUN Machine Technologies (Beijing) Co., Ltd., Beijing, PR China, as well as BRAUN's 26 sales and service partners for 45 countries on all 5 continents, BRAUN is able to quickly provide you with first-hand professional support.

### Products & services from the technology leader:

- State-of-the-art high-performance abrasive cut-off machines
- Combined abrasive cut-off / cold circular sawing machines
- Combined abrasive cut-off / friction sawing machines
- Smaller standard abrasive cut-off machines, series BRAUN-SILVERCUT
- Multi-functional high-pressure grinding machines
- Highly flexible deburring grinding machines
- Innovative solutions for fully-automated turn-key installations or integration of machines into existing production lines
- Life-time service support (OEM spare parts, technical assistance, preventive maintenance, facility upgrade and modernization, etc.)
- Consulting engineering services (project studies, plant inspections, etc.)
